

THE 2016 ENGLISH KEY WORDS INDEX

INDEKS ANGIELSKICH SŁÓW KLUCZOWYCH 2016

- A**
ability to work, 765
accident consequences, 1
accidents, 213
acoustics of rooms, 653
addictions, 537
agriculture, 163
amenorrhoea, 21
analysis of air, 43, 645
analytical method, 43
anesthesiology, 155
anesthetics, 557
apoptosis, 89, 743
apprentices, 567
arsenic trioxide, 89
arsenic, 89
Aspergillus flavus complex, 143
Aspergillus fumigatus complex, 143
assessment of health state, 765
asthma, 109
auditory danger signal, 589
auxiliary health personnel, 499
- B**
BALF, 517
basal cell carcinoma, 255
binge drinking, 21
biocide use, 599
biological markers, 173
Borrelia infections, 73
borreliosis, 163
- C**
caffeic acid phenethyl ester, 743
cancer therapy, 817
cancer, 557
carcinogen, 43
carcinogens, 645
cardiovascular disease, 435
cardiovascular physiological phenomena, 411
causative factors, 327
causes of accidents, 1
cervical neoplasm, 289
chest radiographs, 833
chlorpyrifos, 743
chronic obstructive pulmonary disease, 375
classification, 239
clinical laboratory techniques, 73
coal mining, 729
cocaine, 537
coexisting diseases, 751
color perception tests, 777
color perception, 777
color vision defects, 777
concomitant contact sensitization, 311
conjunctivitis, 109
contract breach, 529
contract extent, 529
contract symmetry, 529
conventional radiology, 321
COPD, 375
cost of illness, 289
court expert physicians, 765
Cox proportional hazards models, 729
crack, 537
cytostatic agents, 499
- D**
deliberate rumination, 201
dental professionals, 311
depersonalisation, 447
diagnosis, 517
diepoxybutane, 645
dietary supplements, 21
3,3'-dimethylbenzidine, 43
directivity of hearing, 589
disease vectors, 73
disengagement, 29
disorientation, 545
disturbances of ventilation, 427
DNA damage, 255
drivers' examinations, 721
drug use, 537
drug-induced and iatrogenic pulmonary fibrosis, 751
dust exposure, 833

dust, 143
dusts, 375
dynamic spirometry, 427

E

earmuffs, 589
eating behaviors, 21
economic burden, 289
EEG, 411
electromagnetic field, 411
electronic cigarettes, 239
employees, 163
employment, 663
empowerment of individual, 681
energy metabolism, 477
entrance surface dose (ESD), 321
environment, 447
enzyme, 109
epidemiological descriptive study, 751
epidemiology, 73, 163
equipment, 155
ergonomics, 707
evaluation, 605
exhaustion, 29
exposure assessment, 577
exposure, 353

F

family–work conflict, 787
family–work facilitation, 787
Farnsworth Munsell 100-Hue test, 777
feed industry, 143
firefighter, 1
fixed-term employment, 529
forced spirometry, 427
formaldehyde, 173
free controlled social labor, 765
fullerene, 397, 817
fungi, 143

G

gas chromatography, 645
GC-MS analysis, 239
gender, 327, 385, 435
glutaraldehyde, 311
gross domestic product (GDP), 289

H

hairdressers, 567
hairdressing allergens, 567

hand hygiene, 623
handling practice, 599
hard coal mines, 477
harm reduction, 537
harmful electromagnetic fields, 51
harmful factors, 51
HBV, 301
health care workers, 673
health care, 691
health education, 681
health literacy, 681
health policy, 681
health promoting school, 187
health promotion, 187, 605
health status, 663
healthcare quality management, 365
hearing protectors, 589
hearing threshold levels, 337
heart disease, 435
high resolution chest computed tomography, 517
hospital, 365, 447
hygiene, 599
hypersensitivity pneumonitis, 517

I

idiopathic pulmonary fibrosis, 751
ILO classification, 833
incidence, 163, 327
India, 599
indirect costs, 289
indirect exposure to trauma, 223
industrial hygiene laboratories, 267
industrial psychology, 173
inhalable fraction, 509
injuries, 213
insecticide, 599
interstitial lung disease, 751
intrusive rumination, 201
intubation, 155
ion chromatography, 509
irritant gases, 375

J

job burnout, 29, 223
job satisfaction, 11, 385
job stress, 707

K

Kaplan-Meier estimate, 729

L

limbs, 321
liquid chromatography, 43
liver, 743
localization, 589

M

management system, 267
management, 605
mass spectrometry, 645
mean particle size, 353
measuring tools, 467
medical certification, 375
medical consequence, 427
medical personnel, 499
medical procedures, 321
medical rescue, 201
medical rescuers, 635
medical staff, 365
medical students, 623
medicine, 89
medico-legal opinions, 765
melanin, 255
melanoma, 255
methacrylic monomers, 311
microwave, 353
Mini-COPE, 455
mobile phones, 411
molecular imaging, 817
mood, 467
multiwork, 385
muscle activity, 155
musculoskeletal disorders, 707

N

nanomaterials, 397
nano-objects, 353
nanoparticles, 397
nanotechnology, 817
narcotic dependence, 777
narcotics, 777
nausea, 545
needlestick injury, 301
neoplastic diseases, 89
nervous system, 411
nicotine dependence, 97
nicotine, 97, 239
noise, 337, 435
noise-induced hearing loss (NIHL), 337
non-clinical healthcare personnel, 301

non-teaching staff, 187
number and surface concentrations, 353
nurses, 11, 447, 787

O

obstructive sleep apnea syndrome, 721
occupational activity, 663
occupational allergens, 567
occupational allergy, 109
occupational disease, 375
occupational diseases, 163, 327, 833
occupational environment, 11
occupational exposure level, 397
occupational exposure limit, 397
occupational exposure, 143, 337, 397, 435, 499, 557, 577, 623
occupational health psychology, 223
occupational health service, 691
occupational health, 11, 477, 681
occupational injuries, 729
occupational medicine service, 681
occupational medicine, 477, 721
occupational rhinitis, 801
occupational risk of HBV infection, 301
occupational safety and health, 51, 477, 623
occupational stress, 467
occurrence of accidents, 1
oculomotor disturbances, 545
office workers, 707
offshore substation, 51
Oldenburg Burnout Inventory, 29
olfaction disorders, 173
olfactory mucosa, 173
open plan rooms for administrative work, 653
open plan, 653
open space rooms, 653
operating room, 557
optical radiation, 577
optimism, 635
orderlies, 301
outcomes evaluation, 187
outdoor work, 577
overhead crane, 589
oxidative stress, 743

P

papain, 109
paramedics, 213
patients' safety, 11
patients' satisfaction, 365

penalty of restriction of liberty, 765
permanent employment, 529
personel resources, 635
phenol-formaldehyde resins, 173
physiotherapy, 673
pneumoconioses, 833
pneumoconiosis diagnostics, 833
poison, 89
polysomnography, 721
post-exposure procedure, 623
posttraumatic growth, 201, 635
precarious employment, 663
preventing adverse health effects, 51
prevention strategies, 673
prevention, 213, 691
prison service, 605
professional activity, 691
professional dancers, 21
professional driver, 455
professional exposure, 567
proficiency testing schemes, 267
proficiency testing, 267
prognosis, 517
project, 187
prophylactic medical check-ups, 691
prophylaxis, 801
propylene glycol, 239
protective clothing, 499
protective gloves, 499
provinces, 327
PSS-10, 455
psychoactive substances, 537
psychological contract, 529
psychometric properties, 29
PTSD symptoms, 635
PTSD, 201
pure-tone audiometry, 337

Q

quality assurance, 267
quality control, 267
quality of health care, 365
quality of life, 663
questionnaires, 721

R

rats, 743
recommendations for healthcare workers, 623
recommendations for medical staff, 801
register, 327

rehabilitation, 673
reliability, 721
return to work, 729
reverberation time, 653
rhinitis, 109
risk assessment, 427
risk factors of NIHL, 337
risk factors, 213, 729

S

safety, 447, 599
samplers for thoracic traction, 509
sarcoidosis, 751
satisfaction with life, 385
satisfaction with marriage, 385
satisfaction, 155
screening, 289
self-efficacy, 223
sense of self-efficacy, 635
sex, 385
Simulator Sickness Questionnaire (SSQ), 545
simulator sickness, 545
simulators, 545
sleep disorders, 411
smoking cessation, 97
smoking, 97
social professions, 29
solar radiation, 577
solvent exposure, 557
solvent, 557
speech transmission index STI, 653
spread of the particles, 353
squamous cell carcinoma, 255
State Fire Service, 1
strategy, 365
stress, 455
structural empowerment, 787
students of dental medicine, 311
students of dental technician school, 311
substances of flavors and aroma, 239
sulfuric acid(VI), 509

T

teachers, 187
the negative effects, 467
theranostics, 817
thoracic fraction, 509
ticks, 73
tobacco smoking, 21, 605
tobacco, 97

trauma, 201
treatment, 517

U

ultraviolet radiation, 577
unemployment, 663
UV radiation, 255

V

vaccination against HBV, 301
validation studies, 97
vibration, 435
visual display unit, 707
vocational training, 567

W

ways to cope with stress, 455
web-based intervention, 223
wind farm, 51
wind instrument, 427
work engagement, 223
work environment, 1

work stress, 455
work, 213, 447
workaholism, 467
work-exacerbated rhinitis, 801
work–family conflict, 787
work–family facilitation, 787
work–family/family–work conflict, 467
workload, 155
workload, 477
workplace, 11, 43, 509, 605, 645
work-related diseases, 673, 691
work-related injuries, 673
work-related musculoskeletal disorders, 707
work-related rhinitis, 801
WRR, 801

X

X-ray examinations, 321
X-ray, 321

Z

zoonoses, 73
