

THE 2015 ENGLISH KEY WORDS INDEX

INDEKS ANGIELSKICH SŁÓW KLUCZOWYCH 2015

A

accelerometry, 653
accidents, 173, 565
acoustic parameters, 225
adaptation, 359
adolescents, 153
air, 99
allantoin, 393
allergic contact dermatitis, 327
allergy to latex, 85
Anaplasma phagocytophilum, 645
Andersen sampler, 779
antibiotic resistance, 49
antineoplastic drugs, 265
apoptosis, 725
application, 575
asbestos consumption, 1
asbestos processing plants, 1
asbestosis, 1
auditory danger signal, 173
auditory temporal processing, 145
aviation, 653
A-weighted sound pressure level of voice, 487

B

back pain, 771
bacteria, 511, 779
bacteriological features, 763
bioaerosol, 779
bioelectromagnetism, 185
biohazard, 39
biological material analysis, 837
bioterrorism, 39
black tea dust, 11
Borrelia burgdorferi, 645
burnout, 687
2-butoksyethanol, 303
bystanders exposure, 803

C

carbon black, 317
carcinogen, 407

carcinogenic biological agents, 39
carcinogens, 29
caregivers, 549
cellular base stations, 701
certification guidelines, 443
chromium(VI) compounds, 407
chronic fatigue, 793
chronic kidney disease, 583
chronic lumbosacral syndromes, 333
chronic renal failure, 583
chronic toxicity, 235
chrysotile, 1
cigarette smoking, 153
cleaning workers, 779
climacteric symptoms, 351
co-infection, 645
coliforms, 763
combined exposure, 303
compliance, 605
contamination, 511
coping strategies, 373
copper mine, 539
cordless DECT phones, 803
crisis in the valuation, 687
cristobalite, 497
crocidolite, 1
cross-reactivity, 85
crystalline silica, 497
cystathionine β -synthase, 539
cystathionine γ -lyase, 539
cytochrome c oxidase, 539
cytokines, 645

D

deep acting, 687
dental equipment, 763
dental unit, 763
depression, 57
developmental toxicity, 725
diagnosis, 71, 443
diagnostic methods, 85
dietary habits, 661

disability, 343
DPT, 145
drivers, 525, 661

E

E band, 701
EAS temperament theory, 793
Eastern Europe, 383
electromagnetic field metrology, 185
electromagnetic field, 185, 803
EMF intensity, 199
EMF source, 199
emotion regulation, 359
emotional labor, 359, 687
employment, 57, 343
environment, 557
environmental tobacco smoke, 827
epicondylitis, 443
epilepsy, 343
Epworth Sleepiness Scale, 679
2-ethoxyethanol, 303
ethylene glycol ethers, 725
exposure environment, 701
exposure system, 185
exposure to second-hand tobacco smoke, 827
expression of naturally felt emotions, 687
extrinsic allergic alveolitis, 739

F

faking emotions, 359
farmers, 645
fatigue, 165
fibers, 511
forestry workers, 645
FPT, 145
FTIR method, 497
fungi, 511, 779
general public exposure, 803

G

GIN, 145
groundwater, 99

H

headache, 333
health care organization, 815
health care system, 815
health care, 17
health effects, 575
health hazard, 99

health information exchange, 635
health information management, 635
health policy, 815
health promotion, 605, 753
healthy behavior, 753
hearing protection devices, 173
Helmholtz coils, 185
hexamethylene diisocyanate, 291
hiding feelings, 359
hospitalized child, 549
household chores, 713
human resources management, 615
human toxicity, 235
hydraulic fracturing, 99
hydrogen sulfide, 539

I

idiopathic pulmonary fibrosis, 739
India, 459
indoor air quality, 49
industrial psychology, 277
industrial truck, 173
information systems, 635
intensive care unit, 213
intentional use of biological agents, 39
interactions, 303
Internet, 635
interpersonal communication, 625
Iran, 471
isocyanates, 291
isoprostanes, 393

J

job satisfaction, 213, 615
job strain, 595

K

kindergartens, 49

L

lead nephropathy, 583
logistic regression, 17, 153
Lombard's effect, 487

M

MAC-STEL, 383
MAC-TWA, 383, 429
maximum admissible intensity, 199
measurement uncertainty, 701
mechanisms of toxicity, 725

medicines misuse, 837
menopause, 351
mental disorders, 57
mental fatigue, 661
mental health, 525
mesophilic and psychrophilic bacteria, 763
mesothelioma, 1
metabolites of isoprostanes, 393
methotrexate, 265
2-methoxyethanol, 303
4,4'-methylenediphenyl diisocyanate, 291
methylisothiazolinone, 327
metrology of electromagnetic fields, 701
microbial contamination of tea, 11
miners, 539, 753
mobile phones, 803
mortality, 17
motor-vehicle accidents, 525
moulds, 49
municipal bus drivers, 333
musculoskeletal system, 443
musicians, 479
mutagens, 29

N

nanomaterials, 575
nanoobjects, 429, 575
nanoparticles, 429, 575
nanosilver, 429
nanotechnology, 575
narcotics usage, 837
natural radioactivity, 557
natural rubber latex, 85
Neck Disability Index (NDI), 771
neck pain, 771
neoplasm, 29
nephrolithiasis, 583
neurological symptoms, 333
noise, 173, 487
normative values, 145
number concentration of particles, 317
nurse, 165
nurses, 213

O

obesity, 653
obstructive sleep apnea, 679
occupational activity, 343
occupational allergy, 11, 85
occupational dermatitis, 327

occupational diseases, 443, 471
occupational dysphonia, 225
occupational environment, 29, 511
occupational etiology, 443
occupational exposure level, 407
occupational exposure limit, 265
occupational exposure to biological agents, 39
occupational exposure, 29, 199, 291, 317, 383, 407, 429, 471, 779
occupational hazards, 713
occupational health care, 625, 815
occupational health nursing, 625
occupational health service, 713
occupational health, 713
occupational medicine service, 815
occupational medicine, 615, 625
occupational nurse, 625
occupational physician, 625
occupational stress, 373
occupational voice, 487
organizational commitment, 277
organizational health, 277
organophosphorus flame retardants, 235
Oswestry Disability Index (ODI), 771
overweight, 653
oxidative stress markers, 393
oxidative stress, 393

P

parents, 549
particles concentration measurement, 317
passive smoking, 827
patch tests, 327
patient satisfaction, 549
pediatrics, 549
perimenopausal period, 351
perpetrators, 525
personal satisfaction, 351
physical activity, 653, 771
physical and psychological health, 565
physical exercising, 153
physical fatigue, 661
physical therapists, 459
pneumoconiosis, 739
Poison Control Centers, 635
poisoning, 635
Poland, 383, 557
police officers, 793
police, 793

polysomnography, 679
polyurethanes, 291
Portland cement dust, 471
power bases, 605
power, 605
predictors, 153
pregnancy, 713
preservatives, 327
prevention, 827
primary prevention, 71
professional activation, 343
professional activity, 57, 351
professional burnout, 213
professional exposure, 265
professional misconduct, 165
prophylactic medical check-ups
 of employees, 815
propylene glycol ethers, 725
protection zone, 199
psychoactive substances, 837
psychological adaptation, 373
psychological factors, 713
psychological phenomena and processes, 277
psychological stress, 373
psychology of work, 615
psychosocial risk factors, 595
PTSD, 525
public health, 49
public transport drivers, 679
pulmonary diffusing capacity, 739
pulmonary function test, 471

Q

quality of care, 615
quality of health care, 549
quality of working life, 565
quartz, 497
questionnaire survey, 661

R

radiofrequency electromagnetic fields, 199
radon concentration, 557
radon, 557
rats, 303
recombinant latex allergens, 85
register of biological agents, 39
register, 29
reproductive toxicity, 725
respiratory symptoms, 471
rest, 165

return to work, 57
risk assessment, 407, 679
risk factors, 459
road safety, 525

S

safety, 173
satisfaction of life, 351
schizophrenia, 57
secondary prevention, 71
security department officers, 373
self-rated health, 17, 373
sensitization to moulds, 11
service professions, 359
sewage analysis, 837
shale gas, 99
sickness absence, 565
silica nephropathy, 583
silver, 429
smartphones, 803
smoking at workplace, 827
smoking policy at workplace, 827
social stigma, 343
solenoid, 185
spectral interferences, 497
standard employment, 565
Staphylococcus spp., 49
STOP-Bang Questionnaire, 679
stress, 595, 615
stroke, 595
students, 653
subordinates, 605
substance, 153
superiors, 605
surface acting, 687
surface area concentration of particles, 317

T

teachers, 771
temperament, 793
temporary changes in hearing, 479
temporary work, 565
TEOAE, 479
tertiary prevention, 71
therapeutics, 71
toluene diisocyanate, 291
tomography, 739
transient-evoked otoacoustic emission, 479
transport, 511
type A behaviour, 213

-
- U**
UE, 383
ultrafine particles, 317
underground tourists rout, 557
uniformed services, 793
- V**
visual fatigue, 661
vocal efficiency, 225
vocal fatigue, 225
voice disorders, 225, 487
voice intensity level, 487
- W**
water quality, 763
work engagement, 277
work environment, 333
work safety in electromagnetic fields, 701
work, 165, 277, 595
workaholism, 71
working population, 17
workplace drug testing, 837
workplace violence, 165
work-related accident, 595
work-related musculoskeletal disorders, 459
work-related symptoms, 11, 583
